Brigittenauer lände 224, 1200, Wien

Profile Summary

Data Science master's student at TU Wien with experience in data analytics, data engineering, automation, machine learning, and dashboard development. Skilled in Python, SQL, ETL pipelines, web scraping, and BI tools. Passionate about AI, Generative AI, and scalable data solutions. Seeking entry-level or internship opportunities in Data Analytics, Data Engineering, or Data Science.

Education

Technical University of Vienna (TU Wien)	2026 - Ongoing
MSc Data Science	
BUIITEMS	2019 - 2024
BS Computer Science GPA: 3.64 / 4.00	

TECHNICAL SKILLS

- **Languages & Databases:** Python, SQL, Excel
- **Data Analysis:** Pandas, Statistical Analysis, Data Cleaning, Data Transformation
- **Visualization & BI:** Power BI, Tableau, Excel, Plotly, Matplotlib, Seaborn
- **Web Scraping & Automation:** Selenium, BeautifulSoup, Power Automate
- **Data Engineering & Cloud:** ETL Pipelines, Data Warehousing, AWS RDS
- **Tools & Platforms:** Streamlit, Git, GitHub, Docker, Jupyter Notebook

Projects

- Enterprise Data Warehouse using SQL Server & Medallion Architecture** [Link](#)
- Built a scalable SQL Server Data Warehouse using Bronze, Silver, and Gold architecture layers.
 - Developed ETL pipelines, data transformations, and star schema models for BI reporting.
- Automated Financial Data Analysis Pipeline** [Link](#)
- Automated daily financial data ingestion and reporting using Python, Power Automate, and Power BI.
 - Built interactive dashboards and reduced manual reporting through workflow automation.
- Sports Data ETL Pipeline with AWS RDS** [Link](#)
- Developed an ETL pipeline scraping 8,000+ PSL player records using Selenium and BeautifulSoup.
 - Cleaned and loaded analytics-ready data into AWS RDS MySQL with improved scraping performance.
- Vehicle Data MLOps Pipeline** [Link](#)
- Built an end-to-end MLOps pipeline with CI/CD, Docker, AWS, and MongoDB Atlas integration.
 - Automated model training, evaluation, deployment, and prediction workflows.

Experience

- Freelance Data Analyst / Python Developer | Remote**
- Delivered web scraping, data automation, and dashboard solutions using Python and SQL.
 - Performed exploratory data analysis, statistical analysis, and data transformation on large datasets.
 - Built interactive Power BI and Tableau dashboards to support business decision-making.
 - Automated repetitive reporting workflows and data collection processes.

Awards	Languages	Certification
• 1st Prize Winner — National Speed Programming Competition • Secured 1st Place among 84 Teams in the All Balochistan Competition organized by Ignite	• English (C1 IELTS) • German (A2 – Learning) • Urdu (Fluent) • Persian (Fluent)	• Google Data Analytics Professional Certificate
